Computer Telephony Innovations

BEST OF BREED VOICE PROCESSING
THE "ICS" - INTEGRATED COMMUNICATIONS SERVER

- The rapid convergence of voice, data, and Internet connectivity has created new opportunities for enterprise managers to unlock the hidden profits in business communication systems. **VoiceGate's "ICS" Integrated Communications Server provides the key.**

- The VoiceGate "ICS" is an advanced, future proofed multi-application business communications system, network and desktop messaging ready. The "ICS" combines VoiceGate's award winning VIP4000 voice processing software and Microsoft's Windows NT / 2000 multi-tasking operating platform. "ICS" supports a wide ranging suite of built-in and optional software modules providing a one-stop shop for innovative business communications solutions.

- "ICS" is affordable, feature rich and cost effective. The "ICS" advanced design and VoiceGate's on-going development program ensure long term protection from obsolesence and rapid pay back of investment in multi-media enterprise communications.

ABOUT VOICEGATE

VoiceGate Corporation designs, manufactures, markets and supports innovative technically superior communications solutions for business, industry and government. System design emphasizes simple installation, ease of use and reliability. VoiceGate products are marketed internationally through interconnects, wholesale distributors and OEM's.

STANDARD PRODUCT RANGE

VoiceGate communications solutions provide coverage across most popular business phone manufacturer's product offerings. Systems start from 2 port standard 2500 set integrations with Avaya, Comdial, NEC, Nitsuko, Samsung, Siemens, OKI, Toshiba, Panasonic, Vodavi, and Win and grow to 24 ports capable of "Seamlessly Superior" digital integrations with Meridian Norstar, Nortel SL1, Meridian M1, Rolm, Mitel, and Avaya System 75/85/Definity phone systems. Bilingual versions for regional languages are available.
